Advertising Greensboro

Do you know that a copy of this Directory of Greensboro is being placed in the Directory libraries and among the commercial bodies, Business Men's Clubs, Chambers of Commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The publishers are doing everything possible to make this Directory a representative city catalog of Greensboro. Are you as prominently represented as you should be?

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

"Hold the wire a second
—*I've got a copy of your order!*"

CUSTOMER on long distance phone waiting for information. Quick as a flash you flip open a drawer, locate the proper folder, visibly indexed. You've answered your customer's question in a fraction of the time it would take to walk to files or call a file clerk. It will pay you to investigate the

"Y and E" Efficiency Desk

the desk that saves an hour a day. Glance at the numbered diagram above. 1 and 4 are upper drawers for card records, stationery or storage. 2 and 5, lower drawers fitted up as vertical files. 3, center drawer for office tools. 6, real roller bearings—the desk drawers can't jam or fall to the floor.

Write or phone today and let us show you how this desk can be arranged to fit *your* particular work.
